MEMORANDUM TO: Assistant Deputy Director (Administration)

SUBJECT: Employment of Retired Officers

1. Reference is made to your memorandum of 19 August 1952 raising the question of a possible amendment to Public Law 53 so as to enable the Agency to employ more than fifteen retired officers under that Act.

2. We have discussed this with the Deputy Director for Administration and with the Assistant Director/Personnel. It appears that present plans do not call for employing, under Public Law 53, more than the fifteen retired officers allowed by that Act and that the situation does not merit adding this matter to our legislative program at the present time.

3. We will appreciate your bringing to our attention any further information which you may receive bearing on this question.
